Providing the Size and Capability for
Vegetation Management on Your Network

Who are we

ETS (formerly Eastern Tree Service) is a privately owned Australian company. We commenced operations in Victoria in 1981 as a specialist power line tree clearing service.

Our business has grown significantly over the last few years and we currently employ more than 1,000 staff and subcontractors. Since commencement we have focused on delivering effective, efficient and sustainable Vegetation Management.

We are now one of the largest independent service providers to the Utility Network industry for Vegetation Management. We provide Services the following:

- Power Utilities
- Roadsides
- Railways
- Pipelines
- Civil Construction
- National Parks
